 MISS, n. Loss; want; failure; omission; error; mistake. *Shak*. [i. Hurt; harm. *Spenser*.]
 MISS, n. [contracted from *mistress*.] pl. MISSES. A young girl; a term of respectful address to an unmarried female, prefixed to the name; as, *Miss Smith*, *Miss Olivia* — an unmarried female kept in concubinage; a kept-mistress. [*Miss*, at the beginning of the last century, was appropriated to the daughters of gentlemen under the age of ten. *Mistress* was then the style of grown-up unmarried ladies, though the mother was living; and, for a considerable part of the century, maintained its ground against the infantine term of *Miss*.] — *Todd*.] See MISTRESS.
 With respect to the use of this title, when two or more persons of the same name are spoken of or addressed, there is a good deal of diversity. Some give the plural form to the name; as, "The *Miss Smiths*;" — others, to the title; as, "The *Misses Smith*." In conversation, the former prevails; in written or printed composition, usage is divided; and in addressing letters, the latter is the more common. The following authorities are given in favor of the former mode, as used in composition: — "The *Miss Cotterels*," *James Northcote*; *James Boswell*. "The *Miss Wilkinsons*," *Ed. Malone*. "The *Miss Penns*," *Richard Rusk*. "The *Miss Porters*," *Eclectic Review*. "The two *Miss Smiths*," *Chambers's Journal*. — The following are in favor of the latter form: — "The *Misses More*," *Ep. Horne*. "The two *Misses Porter*," *Sir Eg. Brydges*. "The *Misses Porter*," *Charles Lamb*. "The *Misses Gosset*," *Sir Robert Peel*. — Those grammarians, who treat of the subject, generally favor the former mode, (*Miss Smiths*); though some make an exception in addressing letters. — "The *Miss Smiths*;" — much preferable to "The *Misses Smith*." — *Grant's Grammar*.
 The following remarks are quoted from Dr. Crombie's Grammar: "Two or more substantives in concordance, and forming one complex name, or a name and title, have the plural termination annexed to the last only; as, 'The two *Miss Louisa Howards*,' 'The two *Miss Thomsons*.' Analogy, Dr. Priestley observes, would plead in favor of another construction, and lead us to say, 'The two *Misses Thomson*,' 'The two *Misses Louisa Howard*;' for if the ellipsis were supplied, we should say, 'The two young ladies of the name of Thomson,' and this construction, he adds, he has somewhere met with. The latter form of expression, it is true, occasionally occurs; but general usage, and I am rather inclined to think, analogy likewise, decide in favor of the former; for, with a few exceptions, and these not parallel to the examples now given, we almost uniformly, in complex names, confine the inflection to the last substantive. — We say, indeed, 'The two *Misses Thomson*;' but we seldom or never say, 'The two *Mrs. Thomsons*.' — 'The two *Mr. Thomsons*.' Hiley, in his Grammar, says, 'In conversation the plural termination is annexed to the last noun only. But in composition and addressing letters to individuals of the same name, we pluralize the title; as, 'To the *Misses Howard*;' 'To *Misses Thomson*.' But both in conversation and in composition we pluralize only the name of married ladies; as, 'Mrs. *Wilson* were there;' 'To Mrs. *Howard*.' — Thus also Dr. Watts: — 'May there not be *Sir Isaac Newton* in every science? — You must not suppose the world is made up of *Lady Aurora Gravilla*.'"
 MISS, v. a. [i. MISSED; pp. MISSING, MISSED.] To fail of hitting, reaching, finding, or obtaining; to mistake; to omit; to perceive want of. — *To miss stays*, (*Naut.*) to fail to come up in the direction of the wind, as the head of a ship.

NÓT-WĪTH-STĀND'ING, *conj.* Although; as, "He is rich notwithstanding he has lost much." *Addison.* Nevertheless; however. *Hooker.*—It is now little used, in either of the above senses, by good writers. See the next article.

NÓT-WĪTH-STĀND'ING,* *prep.* Without hindrance or obstruction from; not preventing; in spite of. *Ŋ* In these senses *notwithstanding* has obviously the force of a preposition; yet it is, when thus used, designated by Ash as an adverb, and by the other English lexicographers, it is designated, in all the forms in which it is used, as a conjunction.—Dr. Johnson remarks upon it as follows: "This word, though, in conformity to other writers, called here a conjunction, is properly a participial adjective, as it is compounded of *not* and *withstanding*, and answers exactly to the Latin *non obstante*. It is most properly and analogically used in the ablative case absolute, with a noun; as, 'He is rich notwithstanding his loss.'"—Dr. Webster considers *notwithstanding*, in all cases, as a participle, "constituting, either with or without *this* or *that*, the case absolute or independent." It obviously has the nature of a participle, rather than of a participial adjective. In the above example, "He is rich notwithstanding his loss," *notwithstanding* may be regarded as a preposition governing *loss* in the objective case; or it may be construed as a participle in the case absolute with *loss*.

NOUGHT, (*nawt*) *n.* Nothing.—[*ad.* In no degree. *Fairfax.*—To rest at naught, to slight; to scorn. *Ŋ* It has been somewhat common to write this word *naught*, in order to distinguish it from *naught*, bad; but *naught* (nothing) is the more proper orthography, and corresponds to *naught*, (any thing.) See *NAUGHT*.

NÓĪL, *n.* The crown or top of the head; the head; noll. *Spenser.*

ŊÓĪLD, (*núld*) [*as would*] Would not. *Spenser.*

PRE-FECTURE, n. "Though I have agreed with all our orthoptists in making the first syllable of *præfect* long, I cannot follow them so implicitly in the accent and quantity of this word. All [i. e. who preceded Walker] but Mr. Sheridan, W. Johnston, and Mr. Perry, place the accent on the second syllable; and the two first of these writers make the first syllable long, as in *præfect*. Mr. Perry, alone, has, in my opinion, given this word its true pronunciation, by placing the accent on the first syllable, and making that syllable short. This is agreeable to that general tendency of our language to an antepenultimate accentuation, with a short quantity on every vowel but a." *Walker.*

♣ "Mr. Sheridan, Dr. Kenrick, Dr. Ash, Mr. Scott, W. Johnston, and Entick, make the first syllable of this word short, as I have done; and Mr. Perry and Buchanan make it long. In defence of the first pronunciation, it may be observed, that this word is not like *primacy* and *primary*; the first of which is a formative of our own; and the second derived from the Latin *primarius*, which, in our pronunciation of the Latin, does not shorten the *i* in the first syllable, as *privativus* does; and therefore these words are no rule for the pronunciation of this, which, besides the general tendency of the penultimate accent to shorten every vowel it falls on but *a*, seems to have another claim to the short vowel from its termination; thus *senative, denative, primitive, derivative, &c.*, all plead for the short sound." *Walker.*

PRO-GRESS* v. n. [*i. PROGRESSED*; *pp. PROGRESSING, PROGRESSED*.] To make progress; to advance; to proceed; to move forward. *W.* The verb *progress*, with the accent on the first syllable, is found in Shakespeare; and Dr. Johnson inserted it in his Dictionary, noted as "not in use." The word is also found in Milton, used in its active sense; as, "to progress a circle;" in this sense, however, it is entirely obsolete. But the neuter verb *progress*, with the accent on the second syllable, is of modern origin or revival; and it has generally been regarded as an Americanism. It often occurs, both in conversation and in published writings, though a great part of our best writers forbear the use of it. It has of late been much used in England, and by writers of high respectability. Among the numerous English authorities that may be brought forward for the use of it, are the following:—Sir Robert Peel, O'Connell, Coleridge, Dick, Hood, Bulwer, Dickens, the *British Critic*, the *Edinburgh Review*, the *Quarterly Review*, the *Monthly Review*, the *Eclectic Review*, the *Dublin Review*, the *Gentleman's Magazine*, the *Christian Observer*, and the *Penny Cyclopaedia*; and it is also inserted in the two English Dictionaries of Maunder, Knowles, Smart, and Reid.

Sm.*] *n.* [*pronunciatio*, L.] Act of pronouncing; mode of pronouncing; utterance; delivery of a discourse. *CP* "This word is regularly pronounced prŏ-nŭn-shĕ-Ā-shŭn, and by all speakers would probably be so sounded if it were related to any such verb as to *pronunciate*, in the same way as *association* and *enunciation* are related to *associate* and *enunciate*. In the absence of any such related verb, most speakers say prŏ-nŭn-shĕ-Ā-shŭn, and so avoid the double occurrence of the sound of *sh* in the same word." *Smart.* Walker says, "The very same reasons that oblige us to pronounce *partiality*, *propitiation*, *specialty*, &c., as if written *parshality*, *proshiekashus*, *shpekeality*, &c., oblige us to pronounce *pronunciation* as if written *prŏnshiekashus*."
The majority of the authorities above given are in favor of the sound of *sh*; and the Rev. Dr. N. H. Wheaton says, in his "Travels in England," "I was a little mortified at having my Yankee origin detected, by my omitting to give the full sound of *sh* in the word *pronunciation*."

PRO-P'PORTION, (-shun) n. [Fr.] [*proportio*, L.] Compari-
 tive relation of one thing to another; equality of ratios;
 size, always in comparison; ratio; rate; equal degree;
 harmonic relation; symmetry; adaptation of one to an-
 other. — (*Arith. & Geom.*) An equality or similarity of
 ratio; that is, if the ratio of 6 to 3 be the same as that of
 24 to 12, then 6, 3, 24, and 12, are in proportion, which
 is denoted by placing the quantities thus, 6 : 3 :: 24 : 12,
 and is read, as 6 is to 3, so is 24 to 12. This, because
 three of the numbers are usually given to find a fourth,
 is often called the *Rule of Three*, and divided into *direct*
 and *inverse*. In *direct proportion*, the second term, if
 greater or less than the first, requires the fourth to be,
 in like manner, greater or less than the third, as in the
 above example. In *inverse proportion*, more requires
 less, and less requires more.

PROTEST, or **PROTEST**, [pró'tést, J. E. J. K. F. H.; pró'tést, or pró'tést, W.; pró'tést, Sm. R. Ash, Nares. Entick; pró'tést, S. P. F.] n. A solemn declaration of opinion, commonly against something; a paper containing reasons of dissent. — (Com.) A writing drawn by a master of a vessel, stating that any injury which the vessel has suffered is not owing to his misconduct or neglect: — a notification written upon a copy of a bill of exchange, note, or order, for its non-payment or non-acceptance. *Blackstone*. — The first pronunciation [pró'tést] of this word is adopted by Mr. Sheridan, Mr. Scott, Dr. Kenrick, Mr. Smith, Mr. Ferry, Buchanan, Barclay, Bailey, and Fenning; and the second [pró'tést] by Mr. Nares, Dr. Ash, Dr. Johnson, and Entick. As this substantive was derived from the verb, it had formerly the accent of the verb; and that this accent was the most prevailing, appears from the majority of authorities in its favor. But the respectable authorities for the second pronunciation, and the pretence of distinguishing it from the verb, may very probably establish it, to the detriment of the sound of the language, without any advantage to its signification." *Walker*.

 "Dr. Johnson, Dr. Ash, Dr. Kenrick, Mr. Barclay, Mr. Nares, Mr. Scott, Mr. Fry, and Entick, accent this word on the second syllable; Mr. Sheridan and Bailey on the last; and Fenning, only, on the first. But, notwithstanding so many authorities are against me, I am much deceived if the analogy of pronunciation be not decidedly in favor of that accentuation which I have given. We have but few instances in the language where we receive a word from the Latin, by dropping a syllable, that we do not remove the accent higher than the original. Thus *recondite*, derived from *reconditus*, may with as much propriety remove the accent from the long penultimate, as *carbuncula* from *carbunculus*, *calamny* from *calamnia*, *detriment* from *detrimentum*, *innocency* from *innocentia*, *controversy* from *controversia*, and a thousand others. The word *incondite* must certainly follow the fortunes of the present word; and we find those orthoepists, who have the word, accent it as they do *recondite*, Mr. Sheridan on the last syllable, but Mr. Fenning, inconsistently, on the second." Spenser and Milton place the accent upon the second syllable of this word; and, as Mr. Nares observes, Dr. Johnson has, on the authority of these authors, adopted this accentuation. 'But this,' says Mr. Nares, 'is irregular; for every monosyllabic termination, added to a word accented on the antepenult, throws the accent to the fourth syllable from the end.' With great respect for Mr. Nares's opinion on this subject, I should think a much easier and more general rule might be laid down for all words of this kind, which is, that those words which take the Saxon terminations after them, as *er, less, ness, looseness, ly, &c.*, preserve the accent of the radical word; therefore this and the following words ought to have the same accent as *remedy*, from which they are formed." *Walker*.

Etick, Rees;* rē-vēr-ē or rē-vēr-ē, P.] *n.* [*rēverie*, Fr.] A fit of wandering thought or deep musing; a wild fancy; meditation. — Both the orthography and pronunciation of this word are unsettled, some good writers and speakers using one form, and some the other. — "This word seems to have been some years floating between the accent on the first and last syllable, but to have settled at last on the former. It may still, however, be reckoned among those words, which, if occasion require, admit of either. It may, perhaps, be necessary to observe, that some lexicographers have written this word *reversie*, instead of *reverie*, and that, while it is thus written, we may place the accent either on the first or last syllable; but, if we place the accent on the last of *reverie*, and pronounce the *y* like *e*, there arises an irregularity which forbids it; for *y*, with the accent on it, is never so pronounced. Dr. Johnson's orthography, therefore, with *y* in the last syllable, and Mr. Sheridan's accent on the first, seem to be the most correct mode of writing and pronouncing this word." *Walker.*

||SÄLVE, (sälv or sälv) [*salv*, P. E. K. Sm. R. Wh.; *salv*, *M. J. F.*; *silv* or *säv*, *Ja.*] *n.* [*salv*, Sax.; *salben*, Goth.] A glutinous composition or ointment applied to wounds and hurts; help; remedy. ☞ "Dr. Johnson tells us that this word is originally and properly *salv*; which, having *salves* in the plural, the singular, in time, was borrowed from it; *salv*, Saxon, undoubtedly from *salvus*, Latin. There is some diversity among our orthoepists about the *l* in this word and its verb. Mr. Sheridan marks it to be pronounced; Mr. Smith, W. Johnston, and Barclay, make it mute; Mr. Scott and Mr. Perry give it both ways: and Mr. Nares says it is mute in the noun, but sounded in the verb. The mute *l* is certainly countenanced in this word by *calve* and *halve*; but, as they are very irregular, and are the only words where the *l* is silent in this situation, (for *calve*, *debe*, *solvo*, &c., have the *l* pronounced,) and as this word is of Latin original, the *l* ought certainly to be preserved in both words; for, to have the same word sounded differently to signify different things, is a defect in language that ought, as much as possible, to be avoided." *Walker.*

SCÉPT'IC, (skēp'tik) [skēp'tik, S. W. P. J. F. Ja. K. Sm.; sēp'tik, E.] n. [*σκηπτικός*, Gr.; *scēpticus*, Fr.] An adherent to the sceptical philosophy; a Pyrrhonist; a doubter; one who disbelieves the truths of revelation; an infidel.

☞ The old orthography of this word was *sceptic*; and it is so printed in the old dictionaries which preceded those of Dr. Johnson, viz., those of Blount, Phillips, Coles, Kersey, Bailey, Dyche, Ainsworth, Martin, &c.; but Dr. Johnson introduced the orthography of *sceptic*, and in this he has been followed by a majority of succeeding lexicographers, among whom are Ash, Kenrick, Barclay, Fenning, Barlow, Brown, Entick, Scott, Sheridan, Perry, Jones, Jameson, and Richardson; but *sceptic* is preferred by Lemon, Walker, Enfield, Fulton and Knight, Rebs, Maander, Smart, and Reid. In the first edition of Dr. Webster's large Dictionary, (1828), the word stands *sceptic*, pronounced *sēp'tic*; but, in the second edition, (1841,) it is altered to *sceptic*. In encyclopedias and dictionaries of the arts and sciences, the orthography generally used is *sceptic*.

Walker, in speaking of the orthography and pronunciation of this word, says, "Dr. Johnson has not only given his approbation to the sound of *k*, but has, contrary to general practice, spelt the word *sceptic*. It is not my intention to cross the general current of polite and classical pronunciation, which is, I know, that of sounding the *s* like *k*; my objection is only to writing it with the *k*; and in this I think I am supported by the best authorities since the publication of Johnson's Dictionary."

In a notice of Dr. Johnson's Dictionary, in the Monthly Review, in 1755, soon after its first publication, the following remark is found, in relation to this word: "Sceptic, he insists, ought to be written *sceptic*, but without producing any authority in favor of that mode of spelling." In all the instances, six in number, adduced by Johnson to illustrate the use of the words *sceptic*, *sceptical*, and *scepticism*, the orthography of *sc*, and not *sk*, is used; the same is the fact with respect to all the instances, nine in number, adduced by Richardson in his Dictionary. The orthography of *sceptic*, *sceptical*, *scepticism*, continues to be the prevailing and best usage; *sc* being pronounced hard like *k* in these words, as in the word *scissors*.

Kenrick, Barclay; sēd'yál, S.; sād'yál or skéd'yál, W.; skéd'ál or sēd'ál, F.; skéd'ál or shéd'ál, Ja.] n. [*σχηδν*, Gr.; *schedula*, L.; *schédula*, Fr.] A small scroll; a detached or separate inventory; a list; a catalogue; a writing additional or appendant; a little inventory.

☞ "In the pronunciation of this word, we seem to depart both from the Latin *schedula* and the French *cédule*. If we follow the first, we ought to pronounce the word *skedule*; if the last, *skedule*; but entirely sinking the *ch* in *schedule* seems to be the prevailing mode, and too firmly fixed by custom to be altered in favor of either of its original words. Dr. Kenrick, Mr. Perry, and Buchanan, pronounce it *skedule*; but Mr. Elphinston, Mr. Sheridan, Mr. Scott, Mr. Nares, Barclay, Fenning, and Shaw, *sedule*; though, if we may believe Dr. Jones, it was pronounced *skedule* in Queen Anne's time." *Walker.*

SCHÍSM, (sizm) [sizm, S. W. P. F. E. Ja. K. Sm. R. W. b.] n. [*schisma*, Fr.; *σχίσμα*, Gr.] A separation from the true church; a division or separation, particularly among those who profess the same religion; a division; separation. ☞ "The common pronunciation of this word is contrary to every rule for pronouncing words from the learned languages, and ought to be altered. *Ch.* in English words, coming from Greek words with *chi*, ought always to be pronounced like *k*; and I believe the word in question is almost the only exceptor throughout the language. However strange, therefore, *sizm* may sound, it is the only true and analogical pronunciation; and we might as well pronounce *schisma* *sema*, as *schizm* *sizm*, there being exactly the same reason for both. But, when once a false pronunciation is fixed, as this is, it requires some daring spirit to begin the reformation; but, when once begun, as it has (what seldom happens) truth, novelty, and the appearance of Greek erudition, on its side, there is no doubt of its success. Whatever, therefore, may be the fate of its pronunciation, it ought still to retain its spelling. This must be held sacred, or the whole language will be metamorphosed; for the very same rea-

son that induced Dr. Johnson to spell *scryptick* *skryptick*, ought to have made him spell *schism* *risin*, and *schodula* *sedula*. All our orthoepists pronounce the word as I have marked it." *Walker*.

SCHIS'MA, * n. [*σχίσμα*] (*Mus.*) An interval equal to half a comma. *Brande*.

SCHIS'MA-TIC, (*siz'mə-tik* or *siz-măt'ik*) [*siz'mə-tik*, *S. W. J. E. F. Ja. Sm. R. Bailey*; *siz-măt'ik*, *P. K. Wb. Scott, Estick, Ash, Rees*.] n. One who practises, promotes, or adheres to schism; a separatist.

(*Med.*) An induration of a gland, forming an indolent tumor not readily suppurating, and at first unattended by discoloration of the skin.—Sometimes written *scirrhus* and *skirrhus*. *Gr.*—"This word is sometimes, but improperly, written *scirrhus*, with the *h* in the first syllable instead of the last; and Bailey and Fenning have given us two aspirations, and spelt it *scirrhus*; both of which modes of spelling the word are contrary to the general analogy of orthography: for, as the word comes from the Greek *σκιρρος*, the latter *r*, only, can have the aspiration, as the first of these double letters has always the *spiritus lenis*; and the *c*, in the first syllable, arising from the Greek *σ*, and not the *χ*, no more reason can be given for placing the *h* after it, by spelling it *scirrhus*, than there is for spelling *scene*, from *σκηνη*, *scene*; or *septric*, from *σκητρον*, *septric*. The most correct Latin orthography confirms this opinion, by spelling the word in question *scirrhus*; and, according to the most settled analogy of our own language, and the constant method of pronouncing words from the Greek and Latin, the *c* ought to be soft before the *i* in this word, and the first syllable should be pronounced like the first of *spire*, *Sir-tus*, &c. Whatever might have been the occasion of the false orthography of this word, its false pronunciation seems fixed beyond recovery." *Walker.*

SERGEANT, (sér'jant) n. [*sergent*, S. W. P. J. E. F. J. W. B.; *serjant* or *serjant*, E.] n. [*sergent*, Fr.; *sergente*, It.] An officer, or a non-commissioned officer of the army.—A *sergeant*, or *sergeant-at-law*, (England) is the highest degree of common law, through which all must proceed before attaining the dignity of judge.—*Sergeant-at-arms*, an officer attending on the person of a king; an officer of a court, or of a legislature, whose duty it is to arrest offenders, &c.

This word is often written *serjeant*; and this orthography is found in encyclopedias, many works on law, and other publications; though the orthography in most of the English dictionaries is *sergeant*.

There is a remarkable exception to the common sound of the letter *s* in the words *clerk*, *sergeant*, and a few others, where we find the *s* pronounced like the *a* in *dark* and *margin*. But this exception, I imagine, was, till within these few years, the general rule of sounding this letter before *r*, followed by another consonant. Thirty years ago, every one pronounced the first syllable of *merchant* like the monosyllable *march*, and as it was originally written, *merchant*. *Service* and *servant* are still heard, among the lower orders of speakers, as if written *service* and *servant*; and even among the better sort, we sometimes have the salutation, 'Sir, your *servant*;' though this pronunciation of the word singly would be looked upon as a mark of the lowest vulgarity. The proper names *Durby* and *Berkeley* still retain the old sound; but even these, in polite usage, are getting into the common sound, nearly as if written *Durby* and *Berkeley*. As this modern pronunciation of the *s* has a tendency to simplify the language by lessening the number of exceptions, it ought certainly to be indulged." *Walker*.

The letters *er* are irregularly sounded *er* in *clerk* and *sergeant*, and formerly, but not now, in *merchant*, *Durby*, and several other words." *Smart*.

In the United States, the letters *er* are, by good speakers, regularly sounded, as in *er*, in the words *merchant*, *servant*, *Durby*, *Berkeley*, &c. The regular pronunciation of *clerk* (clérk) is also a very common, if not the prevailing, mode. Many give the same sound to *s* in *sergeant*. See *CLERK*, and *MERCHANT*.

Johnson has given us no etymology of this word; but Skinner tells us, 'Non infeliciter *Covellus* declinat a verbo *tasse*, diciturque putat *quasi isser*, objecta initiali syllaba.' Nothing can be more natural than this derivation; the *s* going into *sh* before *r*, preceded by the accent, is agreeable to analogy, and the *v* in this case, being pronounced like *u*, might easily draw the word into the common orthography, *sewer*; while the sound of *sh* was preserved, and the *u*, as in *shew*, *strew*, and *sew*, might soon slide into *a*, and thus produce the present anomaly." *Walker*.

SHALL. *v.* [*i.* SHOULD.] It is an auxiliary and defective verb, used to form the future tense. In the first person, it implies *having intention or purpose to, or being in a state to*; as, "I shall go;" "I shall die." In the second and third persons, it implies compulsion, command, promise, or threat; as, "you shall go;" "you shall die;" "they shall go;" "they shall die."
Shall and will, the two signs of the future tense in the English language, are often confounded with each other, especially by foreigners, and by persons not well versed in the language. A sad misapplication of these auxiliaries was made by the foreigner, in England, who, having fallen into the Thames, cried out, "I will be drowned; nobody shall help me." *Shall*, in the first person, simply

foretells; as, "I shall speak;"—in the second and third persons, it commands, promises, or threatens; as, "you shall speak;" "he shall be rewarded;" "they shall be punished."—*Will*, in the first person, promises or threatens; as, "I will do it;"—and in the second and third persons, it simply foretells; as, "you, he, or they, will do it."

The following remarks are quoted from Johnson:—"The explanation of *shall*, which foreigners and provincials confound with *will*, is not easy; and the difficulty is increased by the poets, who sometimes give to *shall* an emphatical sense of *will*; but I shall endeavor, *creatus Minerva*, to show the meaning of *shall* in the future tense.—1. *I shall love*. It will be so that I must love; I am resolved to love.—2. *Shall I love?* Will it be permitted me to love? Will you permit me to love? Will it be that I must love?—3. *Thou shalt love*. I command thee to love; it is permitted thee to love; [in poetry or solemn diction.] It will be that thou must love.—4. *Shalt thou love?* Will it be that thou must love? Will it be permitted to thee to love?—5. *He shall love*. It will be that he must love; it is commanded him that he love.—6. *Shall he love?* Is it permitted him to love? [in solemn language.] Will it be that he must love?—7. The plural persons follow the signification of the singulars." See *WILL*.

SH "The pronunciation of this word is very irregular, as it is the only pure English word in the language where the final *s* does not produce the long diphthong sound of *i* when the accent is on it; but this irregularity is so fixed as to give the regular sound a pedantic stiffness. Mr. Sheridan, Mr. Scott, and Buchanan, however, have adopted this sound, in which they have been followed by Mr. Smith; but Mr. Elphinston, Dr. Lowth, Dr. Kenrick, Mr. Perry, and Barclay, are for the irregular sound; W. Johnston gives both, but places the irregular first. It may likewise be observed that this word, when unaccented at the end of words, as, *Nottinghamshire, Wiltshire, &c.*, is always pronounced with the *i* like *ea*." *Walker*.

[*Syn.*] This word, in the sense of left, is accented by the poets Milton, Dryden, &c., on the second syllable, though most lexicographers and orthoepists accent it on the first syllable, whether it is used in the sense of left or perverse.—Walker says, "This word, though uniformly accented on the second syllable in the poets quoted by Johnson, is as uniformly accented on the first by all our lexicographers, and is uniformly so pronounced by the best speakers. Mr. Nares tells us, that Dr. Johnson seems to think, that when this word is used in its literal sense,—as,
"In his sinister hand, instead of ball,
He placed a mighty mug of potent ale,"
Dryden.—It has the accent on the second syllable; but when in the figurative sense of corrupt, insidious, &c., on the first. This distinction seems not to be founded on the usage."

SJ-RÉN, (*sir'én*, *S. W. J. E. F. Ja. K. Sm.*: *sir'én*, *W. B.*) *n.* [L.; *Sireph*, Gr.] *pl.* **SIRENS**. (*Mythology*) Melodious goddesses, or preternatural women, who dwelt on or near the shores of Sicily, and so charmed passing mariners by the sweetness of their song, that they forgot their homes, and remained there till they perished with hunger. There were originally two sirens, afterwards three. They had the form of a virgin above the waist; and the rest of their body was like that of a bird: — a mermaid: — an enticing woman. — (Zool.) A reptile or batrachian with two feet.
SJ-RÉN, *a.* Alluring; bewitching like a siren.

SIR-LÖIN, (*sir'löin*, *J. E. F. Sm. R. W. B.*: *sir-löin'*, *Ja. Kees.*) *n.* The loin of beef, or a piece of beef covering either kidney. — A *baron of beef*, now an obsolete joint, consisted of two sirloins undivided. *W. Encyc.* — Johnson, in his definition of *sir*, says it is "a title given to the loin of beef, which one of our kings knighted in a fit of good humor;" or, as another phrases it, "in one of his merry moods." — In this account of the origin of *sir*loin, Johnson has been generally followed by subsequent English lexicographers, who have spoken of its etymology. The king referred to, according to some, was Charles II.; but according to a greater number, James I. The following account is given by Dean Swift, in his "Polite Conversation": — "But pray why is it called a *sir*loin? — Why, you must know that our king, James I., who loved good

eating, being invited to dinner by one of his nobles, and seeing a large loin of beef at his table, he drew out his sword, and in a frolic knighted it." Whether this was doubted by Swift in a serious or "merry mood," may be related; as it may well be doubted whether this is a correct account of the origin of the word.
It is not found in any English dictionary previous to that of Johnson, with the orthography of *sirloin*; but the earlier orthography was *sirloin*. Bailey's Dictionary has *sirloin* of beef, corresponding to the French *sirloin de bœuf*, the obvious or probable etymology. *Sirloin* is also given by Ainsworth; and the word occurs repeatedly in Cotgrave's Dictionary, first published in 1611, with the orthography of *sirloins* and *sirloynes*. See **SULLOIN**.
